

This course of study is intended to cater for quite diverse groups of students who have shown they have a good grasp of Mathematics in Year 10.

There are those who may require it as their only Maths subject and intend to do no subsequent mathematical studies in Year 12.

Others may require it and are planning to undertake Further Maths Units 3 and 4 next year.

Another group of students will be studying General Maths Units 1 and 2 along with Maths Methods Units 1 and 2.

The areas of study for Unit 1 and 2 of General Mathematics are:

- Arithmetic and Number
- Discrete Mathematics
- Algebra and Structure
- Graphs of linear and non-linear relations
- Geometry
- Measurement
- Trigonometry

If you completed General Mathematics Units 1 & 2 in Year 10 you could do Further Mathematics Unit 3 & 4 in Year 11

General Maths Unit 1 & 2 is for medium level Maths ability (Vic Curriculum)

A Graphics (CAS)calculator is ESSENTIAL for this subject.
